Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I can't afford to utilize the services of the big carriers with hundreds of minutes and unlimited evening and weekend hours because that is NOT how I use my phone. We are already being taxed to death, and it needs to stop. I think the big corporations need to think about the little people and the people that are struggling because we are being taxed and charged by everyone!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Dawn Anderson
